To whom it may concern,

Re: Total Window Services – Reference Letter

We have delivered many of Melbourne’s premier heritage conservation and restoration project over the past 15 years and over this time I have had the pleasure of working with Kevin and his team at Total Window Services.

Their expertise in the repair of steel and timber windows is proven by the consistently high-quality service they provide on every project we have overseen. Their knowledge and skill of this traditional trade is exemplary, and they have always taken a high degree of care on each and every project to ensure that it is completed to a high standard regardless of size or complexity.

Total Window Services have complete window repairs and replacement on some of Victoria’s most important buildings and for a variety of organisations. Their work encompasses institutional, private, government and commercial clients and includes iconic buildings such as: Flinders Street Station, Trades Hall, the Palais Theatre, Government House and the University of Melbourne.

Their vast portfolio of projects and extensive array of clients is testament to the quality and care they provide on projects. I have no problem in recommending Kevin and his team to anyone and feel comfortable that they will always deliver a high standard of workmanship.

Over the past fifteen years I have worked with Total Window Services, I have always had a high degree of respect for input from Kevin and his team. Their technical advice has always been welcomed and widely respected, even if not always followed.

Should you wish to discuss the above or have any further queries regarding Total Window Services professional remit, please feel free to contact me via email:
